### ***Drawings***

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because some portions of the drawings are hand written and hand drawn. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

### **Reasons for Allowance**

device to A/D conversion;

a pixel data storage device which stores the pixel data subjected by the A/D conversion portion to the A/D conversion; and

an averaging device which applies an averaging process to a plurality of adjoining pixel data on each line stored in the pixel data storage device; and

a selection device which selects whether applying the averaging process to the plurality of adjoining pixel data on each line stored in the pixel data storage device.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.
